MAY BATTLE WITH SPARTACANS TODAY

Troops Reach Ruhr District to Fight Communists

"SOVIET" ARMY 70,000

Berlin Quiet, But Conditions Elsewhere in Germany Said to be Worse.

Stuttgart, March 23.—Troops from Silesia are officially reported to have arrived in the Ruhr district and fighting with the Spartacan army there is expected today.

Exaggerated rumors as to the size of the Red forces there are current in this city. Some reports place the number at 70,000.

Artillery has been brought into action at some points in the Rhur coal basin, near the zone under occupation by the Allies, according to advices received here. Bochum, which was in the hands of the Communists, has been recaptured by the Reichswehr. The Government troops have been forced to evacuate Breslau.

Fighting continues in Leipzig between workmen and troops and there is also fighting in Halle.

A general strike has been called in Munich and it is expected the movement will extend throughout Bavaria unless it is stopped as a result of the negotiations now in progress to settle the demands of the workingmen to pay during the period they were on strike against the Kapp regime. Meetings are to be held in the Wurttemberg factories by the councils of workmen to consider if similar action should be taken throughout Wurttemberg.

Reports received here from Nuremberg said that city was quiet on Sunday following some disorders that previous night. Further disorders at Leipzig on Sunday were reported.

A general strike was called also at Strasbourg yesterday owing to the failure of the employers and workers to reach an agreement concerning the men's wage demands.

No newspapers were published there yesterday, the supply of gas was cut off and all stores, with the exception of the food shops, were closed. The city was quiet, however.

100 TONS OF HAY MAKE BIG BLAZE

Richard H. Wattles' Warehouse Destroyed by Fire

LOSS IS ABOUT $5,000

Firemen Work Six Hours Before Completely Subduing it—Sparks From Locomotive Caused Fire.

Devedod mod modmod mod om

Fire of undetermined origin at 5:15 o'clock this morning destroyed the big frame warehouse of Richard H. Wattles, feed dealer, at the northwest corner of Wolfe and Union strets, together with its contents consisting of one hundred tons of baled hay.

The fire made a big blaze and attracted hundreds of persons from every section of the city.

The fire department succeeded in confining the blaze to the building in which it originated and the fire apparatus was kept on the scene until nearly 11 o'clock this morning before the fire was completely extinguished.

The building was eighty by forty feet and a couple of carloads of baled hay were stored therein yesterday.

The loss will be between $4,500 and $5,000, and is almost completely covered by insurance.

Mr. Wattles was unable to give an idea as to the cause of the blaze, although he thought that possibly it might have been caused by sparks from a passing locomotive.

A motion to set aside the verdict was made by Attorney Edmund Burke, representing the accused, and continued. The prosecution was conducted by Commonwealth's Attorney Howard W. Smith.

The auditorium of the A. H. S., was last evening the scene of an elaborately served banquet, celebrating the close of the basketball season. The hall was appropriately and effectively decorated making a fitting background.

R. C. Hayden was toastmaster for the affair. During the course of the banquet the following responded to toasts and speeches were made:

Letters were presented to the boys as follows:

Jackson, West, Knight, Driefus Hicks, Pettit, Midkiff.

Music was furnished by an orchestra. Much credit is due the boys basketball team for the arrangements of the affair of the evening, and especially on the sumptions menu served which follows:

WALL COLLAPSES IN ROANOKE, KILLING 3 AND INJURING 12

Roanoke, March 23.—Three men were killed and eight to twelve injured when three walls of a section of the Griggs Packing Company, on the southwestern edge of the city collapsed this morning. The walls were part of a new four-story annex upon which the roof was being placed by contractors.

One body has been identified as that of Robert L. Carden, of Roanoke an elevator engineer; another body is unidentifiable, and a third body was blown into one of the tanks and has not been recovered.

Eight of the more seriously injured workmen, among whom are four negroes, were taken to hospitals, where one of the negroes, George Arrington later succumbed to his injuries. The of the injured were said to be in critical condition.

Conflicting opinions were expressed last night by J. F. Barbour, contractor, and R. S. Griggs, president of the Griggs Packing Company, as to the cause of the collapse.

According to Barbour, the wall collapsed as the result of an explosion either from an ammonia pipe boiler. Mr. Griggs denied this.

VIRGINIANS ADMITTED TO ACADEMY WITHOUT TEST

The mental examinations were waived in the cases of these Virginians because of the fact that they possess educational certificates qualifying them to enter the academy, provided they pass the physical test required by this government.

Men's Clothes Go Higher; Hole in Back of Vest

Men's clothes will be higher this spring and summer, but you'll get more for your money, so far as material goes, The New York Custom Cutters' Club, at its fashion show at dinner at the Hotel Commodore last night, demonstrated with the aid of a corps of models that clothing for men will run contrary to the prevailing styles for women and will attempt to conceal the human form as much as possible.

If you're boasting about buying a new suit this season and have enough money to carry through your boast buy something in gray or brown, with a three-button coat that fits rather like a toga and has a vest with a opening in the back. No one would say last night what the opening was for, but all agreed that you couldn't be in style without it. It may be wise to crawl out of, if you meet your landlord face to face.

Pants will be worn in much the same way as usual, though they will be somewhat more voluminous than heretofore. Overcoats will be "shapely, with a full boxed back."

SEES NO WAR THREAT

Chile's Reply to U. S. Deplores Frequent Alarms Caused by Peru

Buenos Aires, March 23.—Chile has replied to the United States note asking the former country to "leave nothing undone to prevent conflict between Peru and Bolivia," according to Santiago dispatches. It is said Chile expresses the opinion that she is unable to attribute greater consequences to anti-Peruvian manifestations in La Paz than "simple agitaiton by popular elements which in no case could possibly suffice to produce the threat of war."

Chile has no other desire than for peace, and has not considered mobilizing her forces, says the note which expresses full confidence that Bolivia will appreciate her duties in respect to foreigners domiciled on her territory. In conclusion the communication deplores the "frequency with which the government of Peru is producing these international alarms in the continent, and maintaining her neighbors and the government of the United States in continental inequietude."

The Peruvian charge d'affaires here, interviewed by La Nacion, said: "Official dispatches received at the legation give the impression of a disappearance of the possibility of a serious conflict between Peru and Bolivia."

THE NEGRO AND HIS PISTOL

By the time the smoke from the murder and suicide on soutth Fairfax street had blown away another negro pistol-toter became busy in the northeastern section of the city yesterday afternoon, he fired four shots at another negro at a distance of about fifteen feet. Neither shot took effect, however. The police soon had the offender under arrest and a special session of the Police Court was held last night for the purpose of investigating the case. The defendant was represented by two members of the Alexandria bar.

It was difficult to ascertain the motive or the assault. The negro who was the target of the pistol-toter alleged that his assailant had been carrying on intimate relations with his wife, and the couple had been surprised. It was, however, disclosed that both negroes had been playing poker on Sunday, and that the negro who wielded the pistol had been the winner. The latter in his defense alleged he had no intention of injuring the object of his wrath and that he used the pistol in self-defense, as his antagonist had produced a knife and was attacking him with stones.

The fact that the accused had been carrying a pistol could not be gainsaid nor resisted, and he was fined one hundred dollars.

Many movements for the amelioration of the condition of negroes have been launched during the past half a century or more. Occasionally an itinerant preacher comes along soliciting funds for some movement designed for the betterment of the negro race. Such are enthusiastic for their welfare, and they doubtless mean well.

The momentous issue, however, especially in our southern country is to make clear to the negro that it is not necessary for him to carry a pistol and hold those responsible who may arm him.

Drastic laws impose severe penalties upon persons who sell poison and certain drugs, while the Volstead amendment to the prohibition law makes it a misdemeanor for a person to carry a bottle of liquor in his or her pocket while severe penalties are provided for those who may sell liquor.

In the face of such laws certain dealers in every city fill their show windows with pistols of all sizes and makes and are allowed to sell the same to any person, white or black, who may want deadly weapons.

The time has come when a radical movement should be made against persons who sell fire arms with impunity.

THE CITY OF THE GREAT KING

As will be seen elsewhere, an organization meeting will be held tonight in the home of one of our prominent Israelitish citizens to discuss plans for the Palestine restoration fund, which is placed at $10,000,000, $5,000 of which it is purposed to raise in Alexandria.

The literal restoration of the Hebrews to the land of their fathers has been the firmbelief of the orthodox since the day of their dispersion during the first century of the Christian era. As time went on, however, and the members of the race became "sprinkled" (to use a Biblical term) in other countries, the dream of the fathers faded in many cases, and at large percentage of the race were disposed to look upon the plain forecasts of their prophets in a spiritual sense. Some were bold in saying that the twentieth century is the long-looked for Messiah and the re-establishment of the Kingdom of Israel should be taken in a phophetic or spiritual sense.

It is needless to say that the fearful ordeal through which Jews have passed during the past five years in Galicia and which many are now passing through in parts of Germany, Austria, Hungary and Russia, prove conclusively that the twentieth century is not their Messiah.

The aftermath of the late war has brought many interesting issues to the birth, one of the most momentous being the wresting of the Holy Land from the grasp of the Turks, who had misruled it for centuries, and making the setting up again of the Kingdom of Israel possible.

We live in an interesting age, and, as some one has truthfully said, when Jehovah puts in motion the thrilling scenes which shall accompany the latter days of the present age the church will be as greatly astonished as the thoughtless world. A large majority of ministers of the gospel as well as religious teachers generally, like many of the favored race of Israel today, have long regarded the forecasts of the redemption of the land of Palestine as spiritual, not literal. Scenes now being flashed upon the world warn us to "take heed lest the light that is within us be not darkness."

MINERS MAY QUIT APRIL 1

Threaten Walkout Unless Promised Retroactive Wage Increase

New York, March 23.—Negotiations for a new wage agreement for anthracite coal miners were virtually at a standstill yesterday, the pending decision here today by the workers general scale committee as to whether there is to be a suspension of work April 1 when the present agreement expires.

Sentiment of the miners as interpreted by union leaders last night is unanimously in favor of a walkout unless the mine operators are reported opposed to such an agreement.

"Tomorrow will decide as to whether there will be peace or war in the anthracite industry," one union representative declared. "We hope to take definite action that will settle this part of the controversy.

Hope of speeding up the negotiations, which have been in progress here since March 9, and reaching a definite understanding on the miners demands of April 1 has been virtually abandoned. Members of the subcommittee, meeting with the operators' committee, conceded this morning that it will extend well into April.

Because of the delay in reaching a decision in the bituminous situation the subcommittee has slowed up its proceedings here with the hope that an award will be made in the soft coal workers' which can be used as a basis for an anthracite agreement.

CANAL OPEN THIS WEEK

Announcement was made yesterday by General Manager G. L. Nicholson that the Chesapeake and Potomac canal will be ready for use by the end of this week.

Corns Go As Gets-It Comes

Pain Stops Immediately-Loosen and Lift Off Quickly

A few drops and 'goodby!' That's how "Gets-It," the modern corn killer, handles corns. All you do is put a few drops on the corn, "Gets It" does the rest—and it is a plenty. Pain ceases instantly—corn ready to lift off soon after.

A very little time and a bottle of "Gets-It" will entirely free you from corns. Then, why not be free? No pain, no trouble, no danger. Just quick, sure, certain relief. Corns and "Gets-It" just will not live together, and it's the corns that move.

It's common sense—the "Gets-It" way. You lift the whole corn right off without even feeling it after "Gets-It' has put it out of business Corns haven't enough "pep" left to hurt after they mix with "Gets-It."

"Gets-It," the only sure, guaranteed, money-back corn remover, costs but a trifle at any drug store. Mfd. by E. Lawrence & Co., Chicago. Sold in Alexandria and recommended as the world's best corn remedy by Richard Gibson and Frank Warfield.

Over 400 Russians, Finns and Poles to be Deported With Flour For Needy Countries

New York, March 23.—Relief ships to be sent by the United States within the next month with flour for needy countries of Europe also are going to be soviet arks, according to information obtained from immigration officials here today. More than 400 Russians, Finns and Poles from all parts of the country, who have been found to have advocated the use of violence to overthrow the government, will be shipped on them in groups.

No repetition of the Buford's trip with an exclusive soviet cargo is planned, but shipping board vessels on which the United States grain corporation is to ship 5,000,000 barrels of flour will be utilized, as well as commercial vessels. A number of the latter type are expected to go to Finland with the breaking up of the ice at Hango in the spring. Russians and Finns probably will be sent to Hango, the Russians being forwarded by rail from that port to the soviet frontier, as were the Buford's passengers. The Poles probably will go to Danzig on food ships

THE MOMENT OF NEED

In emergencies you run to your local drug store for a quick prescription. Or, to finish a dress before going on a trip, you find you need just a wee bit more cloth and run to the dry goods store to purchase it. Or, in numerous other ways you find your local stores convenient and ready to supply an urgent need.

But if you patronize these stores only when you need something in a hurry—if you habitually send money away to out of town concerns—the local stores cannot continue to exist. They must have your support at all times if you want them here in time of urgent need.

There are many ways in which local stores can serve you and save you money. Give them a chance. Your patronage is what they need.

EX-KAISER'S LUXURY

Brussels, March 23.—While thousands are in desperate straits from starvation in Germany, William Hohenzollern, is eating strawberries at $1.25 each in Holland, it is learned.

The strawberries are being bought here and shipped to Amerongen for the former Kaiser's table.

The ex-Emperor is reported to be a frugal eater now, his sole luxury being fresh fruit.

ASK $1,500 MINIMUM PAY

Philadelphia, March 23.—The Philadelphia Methodist Conference yesterday adopted a resolution recommending a minimum salary of $1,300 yearly for Methodist preachers, with $200 additional in pastorates requiring the use of automobiles or carriages.

The conference urged all "good citizens to support only those candidates for public office coming out for unqualified enforcement of the prohibition laws."

COLBY AND CRANE

Without Roll Call, Secretary of State Nomination is Confirmed

The nomination of Bainbridge Colby as Secretary of State was confirmed in executive session of the Senate late yesterday. Charles R. Crane was confirmed as Minister to China.

There was no opposition to either nomination when the question of consenting to their confirmation was called up by Senator Lodge.

BOY KILLS BROTHER

Lad's Head Blown From Body When Gun is Discharged

Philadelphia, March 23.—With his father's double barreled shot gun held before him as he had seen soldiers act, nine year old Phillip Colsimo, Jr., of Lincoln avenue, near Folsom, Ridley Township, Delaware county, Sunday morning marched across the room to within five feet of his younger brother and sister, pulled both triggers and instantly killed his four year old brother George.

The concentrated charge from both barrels tore off the child's head as he stood behind his smaller sister, Mary, with his hands on her shoulders. The shot passed a few inches over her head. So close was she to the muzzle of the gun that she was burned about the face and neck by the powder.

NORTHERN LIGHTS

Many Persons Watch Display of Unusual Brilliance

Shining from the Northern skies for several hours last night, a most unusual display of the Aurora Borealis, more commonly known as the Northern Lights, was witnessed by many residents of Alexandria.

New England and Western New York cities reported a great deal of wire trouble as the result of the display, and reports from all over the country indicated that telegraph wires were generally affected.

The worst havoc reported was in New York, where brokerage wires were badly handicapped and the Atlantic cable lines were affected.

ITALIANS RETURN

New York, March 23.—The Dante Alighieri, of the Italian Line, from Genoa, Naples and Palermo, docked at Jersey City yesterday, bringing 1,800 passengers. Among them were a number of Italian Americans who rushed to Italy soon after the armistice with the intention of living in luxury on their accumulation of American war wages.

Their return is due to the discovery that prices in Italy are just as high, and that profiteering is suppressed no less. They said they would remain in the United States permanently.

UPHOLDS OPEN SHOP

Bay State Supreme Bench Enjoins Photo-Engravers' Unions

Boston, March 23.—The open shop was upheld by the full bench of the supreme court when it ordered a permanent injunction to be issued against Photo Engravers local and International unions, restraining them from interfering with the business of Wright and Company and the Folsom Engraving Company. Refusal of the companies to comply with union demand to conduct their shops on a closed basis had resulted in a strike declaration.

The question for decision, the court said in announcing its ruling, "is whether by concerted action using the strike as a mass weapon, the defendants could lawfully compel the plaintiffs to yield to their demands. If the plaintiffs declined to enter the agreement the underlying purpose manifestly was to enforce acquiescence through the active power of a strike, which even where there is both a legal and illegal purpose, is of itself illegal." The court said further that the right of the plaintiffs at all times to hire in the open market such workmen as they choose, has never been abrogated.

MESSAGE FROM JAPAN

What is believed to be a world's record for transmission of a wireless message by a low powered apparatus was made by the navy radio station at Inglewood, Cal.

The Pacific mail steamer, Venezuela, with only a two-kilowatt apparatus, communicated for some time with the Inglewood station, when the Venezuela was about 70 miles outside the port of Yokohoma, Japan, and flashed and received several messages from the Inglewood wireless, a distance of 5,600 miles. Navy wireless officers believe this will establish a record for low power apparatus.

DELAYS SALE OF SHIPS

Justice Bailey Refuses to Dissolve Injunction But May Act Later

Washington, March 23.—Justice Bailey in Equity Court yesterday refused to dissolve the injunction secured against the Shipping Board by William Randolph Hearst to prevent the sale of 29 former German ships.

However, the court took under advisement the motion of District Attorney John E. Laskey, counsel for the Shipping Board, to dismiss the suit on the ground that Hearst was suing the United States government and that he had no interest in the transaction.

The hearing on both motions began yesterday morning. District Attorney Laskey contended that Congress, not the courts, had jurisdiction in the matter. The case is a "political" one, according to the District Attorney.

William A. DeFord, associate counsel for Hearst, replied that, if this were true, there was nothing to prevent the navy from selling battleships.
